Senior Software Engineer Position

About Us:
We are a growing technology company seeking a talented Senior Software Engineer to join our
 development team.

Required Skills and Experience:
- 5+ years of experience in software development
- Strong proficiency in Python and JavaScript
- Experience with modern web frameworks (FastAPI, React, or similar)
- Expertise in database design and management (SQL and NoSQL)
- Familiarity with cloud platforms (AWS preferred)
- Experience with containerization and microservices
- Strong understanding of CI/CD practices

Responsibilities:
- Design and implement scalable microservices
- Lead development teams and mentor junior developers
- Optimize application performance and reliability
- Collaborate with cross-functional teams
- Participate in code reviews and technical planning

Qualifications:
- Bachelor's degree in Computer Science or related field
- Proven track record of delivering complex software projects
- Excellent problem-solving and communication skills

Location: Remote / Hybrid
Type: Full-time
